frontier and is important for the de-fence of the capital. Norway does not mennee the Swedish frontier and, with the exception of Fredriksten, Norway is willing to yield the outer line of forts. Dr. Nansen added that it was untrue that Norway had been preparing for war. At the present moment, she had not more than 5,000 men under arms and only a few ships ready. Such an ab-surd folly as war seemed impossible. The general impression in well inform-ed circles here is that a pacific settle-ment of the differences between Nor-way and Sweden soon will be reached,

Mrs. Atkinson's Hip Broken, But She is Doing Well.

She is Doing Well.

Mrs. H. D. Atkinson, proprietress of the Richmond Hotel, had the misfortune to break her hip Wednesday afternoon while out driving with her daughter.

Mrs. Atkinson was in the act of alighting from her phacton to gather some wild flowers, when she fell and broke her hip. She was at once driven back to the hotel by her daughter and her physician speedily summoned. The break was set, and last night the patient was resting quietly. Mrs. Atkinson is quite an active lady, and despite her advanced age, with the best surgical attention, which she is having, she will likely suffer no permanent trouble as a result of her fall.

NEW YORK, September 14.—It was officially stated at the office of H. B. Hollins and Company to-day that the Cincinnatt, Hamilton and Dayton Railway has been disposed of, the purchaser not being announced. It was reported that the road has been bought nominally by the Erie, but that the Pennsylvania and the New York Central are interested in the purchase.

BARGAIN CHANGE THE LAW

Effort to So Amend Civil Service Statute as to Prohibit Call for Campaign Assessments.

BY THE SLEMPS

Congressman Could Not Make Levy, But When Son Became Chairman, He Could.

(From Our Regular Correspondent.) WASHINGTON, D. C., Sept. 14 .- An effort will be made at the session of Conan amendment to the civil service

the government is not amenable to fine and imprisonment with which official would be punished, were he to

do the same thing.

The need of such a law is so apparent that many members of Congress will support the amendment with enthusiasm. The levying of political assessments is as common as over it was, even in the old days, when civil service reform was only the fad of doctrinaries, and the spoils system was universally recognized. In the old days the man who did not respond when called on for funds would lose his place so

money. So, Mr. Slemp and his friends went to work on Park Agnew, the State chairman, and collector of internal revenue for the sixth revenue district. Mr. Agnew, who is one of the cleanest as well, as one of the best fellows in the Republican organization in Virginia, was assured that he could not hold the position of State chairman and collector at the same time. "All right," said Mr. Agnew; "Tll just resign the chairmanship." He did so, and Mr. Slemp had his son made chairman. Had some Republican out of the family been elected to the chairmanship, too much of the money raised might have been distributed in other than the ninth district. Having got Mr. Agnew out of the chairmanship, the Slemps then set to work

Having sot Mr. Agnew out of the chairmanship, the Slemps then set to work deliberately and with care to work him out of the collectorship. Agnew had a good record as an official. But the awful charge was made against him by the Slemps that he had falled to "deliver the vota" to Roesevelt that was expected of him. He lost his place, and the President appointed the closest friend of Col. Slemp, Mr. L. P. Summers, of Ablagdon. Agnew was out of chairmanship and

levying political assessmeats, and with absolute impunity and impunity. Baseom Slemp's name was sizued to all the letters that went to Federal officials in the process of the process of

OYSTER BAY, N. Y. September 14.—A contract for the hotel and subsistence consession on the Punama Canal zone, awarded to Jacob E. Marttel, of Gmaha, Neb., by President Theodore P. Shonts, of the Panama, Railroad Company, will stand.

dent Roosevelt, who to-day approved a report on the subject made to him by Mr. Shonts.

The contract amounts, in the aggregate, to many millions of dollars, but Mr. Shonts's report indicates that it may be abrogated at the will of the government, which actually will own the permanent plant used by Mr. Market in filling the terms of his contract.

Mr. Shonts's statement clears up these allegations to the satisfaction of the President. He, therefore, has approved the report, and no further action concerning the protest will probably be taken.

Mr. Shonts says in his report that the bid of Market in overy item but one was either as low as or lower than the other bidders, and that all bidders were fairly treated on precisely the same basis, and Mr. Shonts further says:

"In making the award I took into consideration not only the prices, but the experience of the bidders and the organizations for the business that they now have. Mr. Markel has had thirty years'

experience of the bidders and the organi-zations for the business that they now have. Mr. Markel has had thirty years' experience in this special field of operat-ing railroad hotels and constructing camps on the Union Pacific, Illinois Cen-tral, Chicago, Burlington and Quincy, Kansas City, Southern and other roads, that He now has large camps on two or three of these wide, that he has such a three of these reads; that he has such a arge force that he can withdraw from it sufficient help to promptly equip the totals we have constructed, and will also be the castless we have constructed, and will also his staff) to keep supplying new men from his force in the United States as exigence demands, and letting those on the Isthmus return here to recuperate,

Teachers' Meeting.

The public school teachers of the city met in the auditorium of the Central School yesterday morning to be assigned to their various departments and grades. Superintendent Fox delivered a short address of welcome, and was followed by Dr. S. C. Mitchell, of Richmond College, a member of the School Board. Dr. Mitchell delivered an inspiring talk on the responsibilities of the teaching profession and the economic development of the schools. He discussed briefly the problems of national integration and nacial adjustment, two grent questions now at issue in the country, which he said must seek their solution through the

schools of the country, and then took up the relations, cordial and friendly, which should exist bewteen the teachers and their principals. As the normal for the colored teachers had been so successful this year, he suggested that such an one should be established for the white teach-ers next year. He offered no plan, but merely left it as a suggestion, to be fol-lowed out when the time should become rine.

ripe. Mr. E. H. Russell, recently appointed Mr. E. H. Russell, recently appointed inspector and examiner of schools for this district delivered a helpful address on general school lines; Major Capers, chairman of the School Board, spoke on the cordial relations that should exist between the principals and teachers, a subject that had been touched on before, and, as one of the chief points of als address, emphasized the importance of great meetings, and made some suggestions as to the best methods of conducting them. The superintendent closed with a short talk in reference to the details of school work.

Buildings in Good Repair.

There are now fineteen school buildings in the city, and all of them have been subjected to a general overhauling and repair, so that they are now in better condition than ever before. Additions have been made to and steam heating apparatus has been put into the Bellevue and Leigh schools, and additions have been also made to the Springfield school. To-day will begin the enrollment of the old pupils, and on Monday the enrollment of the mew pupils will take place. On Tuesdry the rod and gun will have been laid away, summer scenes and gayettes will have become but a longing mem-

WOODWARD & SON, Lumbermen, Richmond, Va. A Few Good Features of a Great Newspaper.

The next issue of the Sunday Times-Dispatch will be one of surpassing excellence. Every department will be up to a high standard, and there will be many features of special interest. The reawakened interest and activity of the world after the stagnation of summer will be reflected in every department of this issue of the great Virginia Daily. Men, women and children will all be interested and entertained.

Just a Few Hints:

A Jewish Massacre, by Maxim Gorky .- This is a story of thrilling interest by the great Russian novelist.

The Phonograph and the Graft.—This is the third of the matchless series of short stories being printed in the Sunday Times-Dispatch. It is by O.

The Breadwinners, by John Hay.—This remarkable story, written years ago by the distinguished statesman and diplomat, grows more interesting as it proceeds. The third installment will be printed Sunday.

All the News from Everywhere.

While the Times-Dispatch seeks to meet the public demand for good magazine and home features in its Sunday edition its first and greatest mission is to give the people the news. This it does regardless of trouble and cost. The full Assocated Press service, the New York Herald service, domestic and foreign, and our own army of correspondents give us facilities for getting the news that cannot be excelled. Everything of importance that happens anywhere in the world is promptly covered. Sporting and market news a specialty.

The colored schools will open for the registration of the old pupils on Monday, and for the new ones on Tuesday. Wednesday work for them, too, will begin in earnest.

in earnest.

The outlook for the schools this year is bright with prospect. Every facility of modern methods that the finances of the city and the attention of the board can supply has been given to the schools. The teachers are of recognized standing. It but remains now for the children of Richmond to do their part.
